40 ELK ARRIVE AT TROUT LAKE

Animals Safely Make Trip From Wyoming To State Game Farm

Forty elk from Yellowstone Park were unloaded at the state game preserve at Trout Lake, Saturday night, after having safely made the long trip by express from Wyoming. The elk were presented to the state by the government at the request of the Wisconsin conservation commission. Wisconsin sportsmen helped to defray the expense of capture and shipment which amounted to about \$200.

Frank B. Moody, formerly of this city, and W. E. Barber, members of the conservation commission, had charge of the unloading the animals.

"I never saw a finer bunch of animals than this consignment of elk," said Mr. Moody. They came through in perfect condition, although they were three days and nights on the road, in an express car. They were in charge of a federal agent from Yellowstone Park. When I left the state farm they were lying down, chewing their cud as contented as a herd of domestic cattle.

One female suffered a strained tendon of a hind leg, and this was treated by a veterinarian who had there to inspect the animals. The cow lay down and quietly submitted to having the hurt dressed. The leg has been placed in a plaster cast and we expect it will be well in a few days. There are now forty elk on the farm.

The elk from the Yellowstone are yearlings and 2-year olds. They have been placed in a two-acre enclosure, surrounded by a wire fence nine feet high with two additional strands of barbed wire at the top, and will be kept separate from other animals until danger of contagious disease has passed.

Both Mr. Moody and Mr. Barber are confident that the elk will do well; they will be fed through the winter, and during the summer will, it is expected, find sufficient sustenance in the forest. If the herd stands the Wisconsin climate, it is the intention next season to add to pair of buffalo to the animals in the preserve, and probably three or four moose.

TRAIN WRECK AT HAZELHURST

Three Tomahawk railroad men, Conductor Julius Krueger and brakemen Ernest Morin and Edward Urban, had a narrow escape from serious injury or death Wednesday morning near Hazelhurst when the caboose in which they were riding was derailed—thrown down an 18 foot embankment. Mr. Urban was the only man injured and he not seriously, although bruised and scratched so that the services of a doctor were needed after he reached his home in Tomahawk. Messrs. Krueger and Morin are only a little sore from their shaking up.

The accident occurred about half mile this side of Hazelhurst—was caused by spreading rails. Several log cars were derailed, but did not leave the tracks. The caboose was badly damaged and only for the prompt action of trainmen would have been destroyed by fire—Tomahawk Leader.

FARMERS WILL MEET MARCH 3

A farmers' mass meeting will be held at County Representative Juday's office, Saturday March 3, at 7 p. m., to discuss matters of interest to all farmers in Oneida county. Among the questions, which are to be discussed, are the Oneida County Farm Loan Association, Assemblyman Rogers' land clearing bill, Whittingham's dynamite purchase bill, and other matters of interest to farmers. Chas. B. Howe, president of the Farm Loan, says: "We farmers ought to get together at least once a month and talk over the business of farming. Business men have their advancement association etc., and the plan works well. Farmers ought to follow the city man's example."

FILLING IN SWAMP
F. E. Parker, county highway commissioner, started a road crew at work Monday in McNaughton, filling in a wet swamp. Mr. Parker says this work can be done much easier and cheaper at this time than later in the summer.

MANY GATHER AT GRANGE MEETING

Excellent Program Is Feature Of Western Pomona Friday

(Contributed)
The general opinion of all who attended the Western Pomona Grange meeting last Friday in the Woodman Hall was that our worthy lecturer, Mrs. S. S. McIntosh, pulled off the best program in the history of the Pomona.

The varieties of apples suited for this section was explained by Bros. Juday, Wilde, Howe and Lowell. Mrs. E. K. Riek's proposition of a cook book was accepted and a committee appointed to carry on the plans.

Co-operation was the only way for farmers to profit in buying and selling. Some ways to co-operate was told by Bros. Dawes and Howe. Bro. Thomas Leith and Bro. Geo. Dawes gave good methods for strengthening and making useful subordinate Granges.

If Bro. Boehm, Sis. McIntosh and Sis. Howe's plans for heating and lighting the farm homes were carried on the farm home would be as comfortable as any city home. Bro. Lowell's paper on Improvements of School Grounds, will be published and sent to the teachers in the Western Pomona district. It is hoped that this will be a start to make the school grounds of the Western Pomona Grange district an example for the school grounds in other northern counties of Wisconsin. Prof. Mackin spoke on the prohibition topic as well as explaining to grange members the benefits of the Oneida County Teachers Training school and what the farmers were getting from employing teachers who have had this training.

Mrs. Crosby and Mrs. Riek gave papers on National Prohibition, each dividing the topic in three classes to talk upon. Mrs. Riek talked on the drinker, the seller and the government, placing the blame of all three on the government and the voters who vote for such laws.

Mrs. Crosby told the Why? How? and When? While space will not allow to tell the many reasons why we should have National Prohibition. The how to get National Prohibition was told in the following words: Agitation, Education, Organization, Co-operation and Legislation.

The when, is certain 1920; the farmers, the Grange organizations, the Womans Christian Temperance Union, the Temple of Honor, the Good Templars, the Anti-Saloon League, the prohibition party, the Catholic church societies are all co-operating together in one organization to make this state, this nation dry in 1920.

Several members added to the National Prohibition topic which only strengthened the day for it to come to Wisconsin.

Sis. Olive Dandeneau furnished the musical part of the Pomona program. Miss Helen Wilde in her recitation gave all some very good advice to follow. "The Wisconsin Farmer" editor presented the members with copies of "America" which closed the program.

WOODSMEN SAID TO BE SCARCE

The labor conditions in the woods of northern Wisconsin are said to be giving lumber companies more trouble this winter than they have for some years and lumbermen are having great trouble in maintaining crews at their camps. "Wages are the highest they have been for years and conditions in the camps were never better but this does not seem to tempt the men who fight shy of the jobs."

Nearly every camp operating in northern Wisconsin, and the same is also true throughout the northwest, is short of men and the offers of high wages do not prove tempting.

The shortage of men is interfering somewhat with the cut but with cold weather for some little time yet the loggers will be able to catch up.

HAVE YOU TRIED CRISPETTE?
Earl J. Kruckeberg of this city has engaged in the manufacture of a delicious pop corn confection known as Crispette, which he has introduced on the local market. Mr. Kruckeberg has purchased a special machine necessary to make Crispette and has likewise obtained the right to distribute the confection through this part of Wisconsin. Crispette was first sold at Coney Island and it has since gained popularity at all the famous amusement resorts in this country. Saturday night Mr. Kruckeberg will give out liberal samples of Crispette at the Majestic theater.

EXPOSURE CAUSE OF MAN'S DEATH

C. W. Lundeen Of Big Twin Found Frozen At Parish Siding

Children of Fred Osterberg discovered early Sunday morning Charles W. Lundeen lying near the railroad track at Parish Siding in such a frozen condition that death resulted several hours later.

Lundeen, who had been at Phelps on Saturday to pay his taxes, started late in the afternoon for his home about four miles northwest of the village and a mile west of Adams resort. He had been using skis, borrowed that day from Albert Adams, and his trail was easily followed from Phelps to where he was found.

In leaving Phelps, Lundeen was supposed to leave the railroad track near Adams' resort and take a shortcut trail home. Instead he followed the railroad to the old Parish Lumber Co's Siding. From the ski tracks it could be seen that the man was badly confused in the dark and lost—tracks would circle and several places he had fallen or laid down to rest.

When discovered Sunday morning by the Osterberg children he was leaning against a log jammer near the siding track in an unconscious condition. Carried to his home nearby Lundeen lived until late that afternoon. His legs, arms and face were frozen solid.

Lundeen was 56 years old and he and his wife lived near the Wegner resort, north of Wm. Adams on Big Twin lake. He leaves a wife, but no children.—Vilas Co. News.

L. B. WOODRUFF RESIGNS PLACE

L. B. Woodruff, who has for the last eight months been secretary of the Rhinelander Commercial Club, has tendered his resignation to the directors. It is understood that Mr. Woodruff will vacate his position about March first.

Mr. Woodruff's successor has not been selected up to this time. The directors have received applications for the place but have taken no action on the matter.

LENT IS HERE

Yesterday was Ash Wednesday, the beginning of the Lenten season, and church people throughout the country will enter upon a 40-day period of fasting and abstinence from worldly pleasures. Special services will be held during Lent in many of the Rhinelander churches, Catholic and Episcopal especially.

Social activities will be at low tide until the close of the Lenten season. Few dances or parties will be given during the period.

REV. F. R. WEDGE LEAVES CITY

Rev. and Mrs. F. R. Wedge and little son departed from this city Friday night, their destination being Hot Springs, Ark., where "the fighting parson," it is said, will recuperate from his recent break down.

Rev. Wedge came to Rhinelander last spring and assumed the pastorate of the First Baptist church. While here he gained considerable notoriety throughout the country by organizing an amateur boxing club and holding boxing shows in the church.

Before leaving Rhinelander he said that he would return here to continue his work as soon as he had regained his health.

ANOTHER EARLY RESIDENT GONE

As the New North goes to press it is learned that Louis Haas, an early resident of this city and county, died this morning at his home near Lake Julia. Mr. Haas has been in failing health for several years but managed to remain active until a short time ago.

For a number of years past Mr. Haas has been engaged in the saloon business near Lake Julia. He also was treasurer of the town of Crescent and possessed a large acquaintance throughout this vicinity.

CO. L EXPECTED HOME WEDNESDAY

Second Regiment Will Depart From Fort Sheridan February 28

Fort Sheridan, Ill., Feb. 17.—The Second Wisconsin regiment, encamped here, will not entrain for home until about February 23, it was announced today. It will be ten days before the exact date is known and in the meanwhile checking back government property will keep the men busy. Oshkosh, Sheboygan, Appleton, Marshfield, Ripon, Fond du Lac, Manitowish, Marinette, Beaver Dam, Rhinelander, Inette, Green Bay and Ashland, are planning receptions for the soldier boys.

Philipp Protests Charge
Fort Sheridan, Ill., Feb. 19.—(Special).—According to a telegram received here by officers of the Second Wisconsin infantry, Gov. E. L. Philipp has sent a telegraphic protest to Secretary of War Newton D. Baker against the attempt of the army to charge enlisted men for clothing issued to them prior to June 20, 1916.

This clothing was issued to the men at various periods before that date, in some cases three and four years before, in others only a few weeks or months.

The governor in his telegram has pointed out that the action of the army officers is strictly contrary to army regulations, and the exact paragraph making such an act illegal was cited. Adj. Gen. Holway instructed the Wisconsin officers to obey the orders of the army officers pending an answer from the secretary of war.

The loss to the enlisted men will be about \$17,000 if they are made to pay for this clothing, which is commonly known as "gratuitous issue." Wisconsin officers and clerks say the order has made no end of difficulty and work.

PLAN TO OBSERVE BABY WEEK HERE

Over Two Hundred Wisconsin Cities Will Hold Programs This Year

That "Baby Week" will again be observed in Rhinelander this year is the announcement of those who were in charge of last year's "Baby Week" program. Early in May is the official date set for "Baby Week" by the children's bureau in Washington. Last year about one hundred towns in Wisconsin observed the week and it is stated that two hundred towns will hold programs this year.

The advisability of beginning the observance in Wisconsin cities a week before the official date and extending it a week later, so that prominent speakers may appear at more meetings, is urged by University Extension workers who are assisting in the plans for the Baby Week campaign.

A bulletin containing suggestive programs for various communities is being prepared for Wisconsin cities. It will be ready March 1. Package libraries will be sent out by the Extension division, as well as sets of lantern slides films illustrating subjects pertaining to needs and care of children. Speakers will be arranged for by the department of general information and welfare.

Leaflets on feeding the baby, proper dress for the baby and bathing the baby will be furnished by the Extension division for free distribution at the Baby Week meetings, and posters to help advertise the meetings will probably be supplied.

CLEASBY WILL SPEAK MONDAY

E. A. Cleasby, district inspector of migratory bird law, will speak in Rhinelander next Monday night. In the afternoon Mr. Cleasby will address the high school students.

All sportsmen are urged to hear Mr. Cleasby. The meeting will be in the city hall at 8 o'clock. Ladies are cordially invited.

TWO HEAVY SNOW STORMS
Train service was badly crippled Monday and Wednesday by heavy snow storms which were general over the central and northern parts of the state. In Rhinelander the storms, though severe, resulted in no damage.

Trains into this city were from one to five hours late. The present winter has been exceptionally demoralizing to railroad traffic.

HIGHS LOSE TWO GAMES IN WEEK

Ironwood And Fond du Lac Teams Defeat Local Basketball Shooters

When the local five appeared on the floor in the game with Fond du Lac Wednesday night, they were greeted with tremendous applause from the crowd of spectators, numbering 525 people.

The first half proved to be very encouraging to the local boys, over the preceding year's game with Fond du Lac, closing with a score of 8 to 6 in favor of Rhinelander. Rhinelander scored the first second, Fond du Lac third, 11th, after which Rhinelander came in for the fifth, followed up by the sixth in Fond du Lac's favor.

In the second half the locals seemed to lose their hold on the visitors for Fond du Lac promptly scored the first, second, third, fourth, fifth, sixth and Rhinelander scored in the seventh, followed up by the eighth and ninth. Fond du Lac closing the second half with a score of 10 to 20 in Fond du Lac's favor.

The local boys exhibited very good playing, the team working as one man and justly deserved the patronage of all who attended.

The first half line-up consisted of Sorenson, R. Cain, McEachin, Danielson and Usher. McEachin going out in the first half and White taking his place.

There was considerable changing of players in the second half, Usher going out and Wilson taking his place after which White went out and Westgate took the field.

Loss To Ironwood
The return game played by the locals at Ironwood was a great disappointment to Rhinelander fans. In the game between the teams here the miners were swamped, being utterly bewildered by the rapid passing and short shots of the home team. However, they profited by that game and practiced to defeat such a style of playing.

At the end of the first half, in spite of their efforts, Rhinelander led by a score of 7-1, having played Ironwood off her feet. At that a considerable change in our line-up and a tightening up of Ironwood's guards upset things and the tide changed. During the second half our only point was a free throw, while Ironwood brought her score up to 21, the game closing 21-8.

Rhinelander was represented on the floor by Danielson and Wilson, guards, White center, Sorenson and Cain, forwards, Whittaker, Westgate, and Usher were put in just before the loss of the first half. The score was secured by two field baskets by Wilson, three successful free throws out of a possible four by Cain, and one by Usher with two chances. A small band of faithful rooters, mostly alumni or ex-students, accompanied the team and gave help from the sidelines. The game was refereed very satisfactorily by Ironwood.

STRONG MEN AND WOMEN
At the Congregational church Sunday morning at eleven o'clock, the pastor will take for a subject, "Strong Men and Women." This will be the third sermon on this topic of a series that has been given the past two weeks.

There was a goodly number at the service Sunday morning. Let all of our people come out Sunday.

Bible school at ten o'clock. Young People's meeting at seven p. m.

Evening service at 8 o'clock instead of the vesper service.

Stereopticon Lecture
At the Congregational church Sunday evening at eight o'clock Mr. Mackin, Principal of the Training school, will give a lecture on Russia, using a hundred slides. Don't miss this service! Everybody welcome. Strangers in the city are invited to worship with us.

Walter C. Heyl, Minister.

"REMEMBER THE MAINE"
Last Thursday was the nineteenth anniversary of the destruction of the United States battleship Maine, in the harbor of Havana, Cuba, the event that precipitated the Spanish-American war in 1898. The event is remembered with unusual interest in view of the fact that the United States is now on the verge of another possible conflict, the first situation of the kind since the Spaniards were driven from the western hemisphere.

GOING TO FOLLOW DAD
"Yes, I think I'll follow in the foot steps of my dad and be a news paper man," was about the first remark of a bright little chap who arrived this morning at the home of Mr. and Mrs. M. H. Barton. "This looks like a fine town and I guess I'll stay here and help boost things along. Of course, I'm too small yet to cut much ice, but I have a lot of lung power and can do my share of shouting. George Washington hasn't got anything on me. I was born on February 22 too."

LAWYER MORTER DIES IN SOUTH

Expires In Jacksonville, Fla., While On Way To St. Petersburg

Tuesday morning a telegram was received in this city announcing the death in Jacksonville, Florida, of Attorney Robert J. Morter of this city. Mr. Morter left here about two weeks ago for Florida in the hope that a sojourn there would prove beneficial to his health. His family and friends little realized that his condition was so serious when he left here and the news of his sudden death came as a sad surprise to all. He had been in failing health for some time past and the trip south was made on the advice of his physicians. He intended to go to St. Petersburg, Florida.

Mr. Morter was a graduate of Wisconsin University law department and established a practice here about eight years ago. In conjunction with his profession he conducted a loan and real estate business and was very successful. During his residence here he took considerable interest in political affairs and was twice a candidate for municipal judge. He was a justice of the peace at the time of his death. Mr. Morter was a progressive republican. Throughout this city and county he had a large acquaintance and the news of his demise is learned with sincere regret.

Deceased was 32 years of age and spent his boyhood in Lodi, Wis. He is survived by his wife and one child, his parents, Mr. and Mrs. Thomas J. Morter and two sisters.

Thomas J. Morter, the father, left immediately for Florida to return with the body. Funeral arrangements have not yet been made.

MUNICIPAL COURT

In municipal court Saturday Jack Duey, who claims to be a woodsman, was found guilty of stealing a suit case from Martin Wesolowski's saloon in Monico and was sentenced to four months in the county jail.

Louis Chase, colored, pleaded guilty to a charge of petty larceny and is serving a ninety day term in the county jail. The complaint was made by H. R. Goldstone who charged Chase with fleeing him out of a quantity of merchandise. Chase, it is said, has expressed a willingness to work and reimburse the merchant for his loss.

A SUCCESSFUL EVENT

The Royal Neighbors entertained the usual large crowd at their annual mask ball in the Armory Monday night. This was the final dance before Lent and the attendance fairly packed the hall. The ticket sale amounted to \$216 and the proceeds, from lunch and refreshments also reached a nice sum. The lodge cleared about \$160.

Prizes were awarded as follows:

Mrs. James Irick, ladies' first prize.
Miss LaMore, ladies' comic prize.
"Slim" Jacobson, gent's 1st prize.
Caton Mount, gent's comic prize.
Many clever costumes were on the floor and judges found their task a rather difficult one.
Music was furnished by the Oneida orchestra.

WILLIAM CLEVELAND

A Disciple of Prevention
(By Maude P. Hook)

On the interurban car this morning the three seats directly ahead of me were occupied by a pathetic little family—widow and five frail but neat and handsome children.

I knew something of the history of the family and my curiosity was aroused as to where they could be going so early in the morning. The father, a laborer, had died about a month previous after long suffering from tuberculosis. The baby, a bright little fellow of three, had been dismissed from the Children's Tuberculosis Hospital during the year, after successful treatment for spinal tuberculosis. All had been affected by the disease, in some form, at one time or another. I inquired as to how the child was getting along.

"Oh!" the mother said in her broken English. "He is just fine, they couldn't have done him better. His little back is so straight and fine now. To him, yet, life is another thing. You know he was by the Children's Hospital on a sun-porch."

"I must take them all now to the 'Evening' Court that the judge should give me one those, now, widow's pension. I pulled them all out of bed at half past five."

"After," she continued, pointing to a girl of seven or eight who was even more frail than the rest, "I will take her to Maudie that they should examine her for the tuberculosis. It is better they should find it out first, than to let it till it is too late—and then—"

She did not finish the sentence, but her face told the story. This brave little woman has learned the tragic lesson, too late, perhaps, but still in time to protect her brood from further ravages of the disease. What an eloquent

lecturer she might make for the cause of prevention. What a pointed example she is to us of the toll which neglect and ignorance exacts of the state! Had the belated attention which the family now receives been given five years ago, there would have been no need for the county aid which they have been receiving for some time, no demand for a widow's pension, and no little children handicapped at the very start.

MRS. MELTON'S LETTER

To Tired Worn-out Mothers

Jackson, Miss.—"I shall feel repaid for writing this letter if I can help any tired, worn-out mother or housekeeper to find health and strength as I have. I have a family of five, now, and do my housework and I became very much run-down in health. A friend asked me to try Vinol. I did so and now I am well and strong and my old time energy has been restored. Vinol has no superior as a tonic for worn-out, run-down, tired mothers or housekeepers."

THE NEW NORTH

The New North Printing Co.
Entered at the Postoffice at Rhinelander, Wis., as Second Class Mail Matter
FEBRUARY 22, 1917

"For the cause that lacks assistance;
For the wrong that needs resistance;
For the future in the distance
And the good that we can do."

Owing to a break down in the mechanical department of the New North it has been necessary in this issue to omit a large amount of local matter and practically all the county correspondence. As "accidents will happen in the best of families" we have no apologies to make to our readers.

First Military Bands.

Military bands first came into existence about 1685—in the reign of Charles II. That monarch had a partiality for music. Anyhow, it was he who, by a royal warrant which he issued in that year, authorized the employment of 12 musicians in "the company of the King's Regiment of Foot Guards in London." Furthermore, in order to secure higher pay for the musicians than was granted to the other Tommies of that day, the merry monarch very "honestly" directed "that a fictitious name should be borne on the strength of each of the other companies of the regiment quartered in the country." The money received for the payment of these Tommies who did not exist was then divided amongst the bandmen—a simple, if not very straightforward, arrangement, certainly!

Japanese Frames.

In his book "On the Laws of Japanese Painting," H. P. Bowie states that Japanese paintings are seldom framed. The reason for this is that frames take too much room. "Frames are used chiefly for Chinese writings," he continues, "hung high in public places or about the dwelling, and are called 'Jaku,' meaning 'forehead,' in allusion to raising the head to read what the frame contains. It is etiquette that such framed writings be signed with the real name rather than the 'nom de plume.' Two kinds of seals are affixed to the frame—one, on the right, at the beginning of the writing, and called 'Yu In,' containing some precept or maxim; and one or two, on the left, after the signature, bearing the artist's name and any other appropriate designation. All writings in Chinese or Japanese read from right to left, and frequently are the sole ornament of a pair of screens."

Change of Scene After Grief.

Many women find in change of scene a most wise course to follow when some trouble comes to them. The old associations but serve to renew their grief, whereas being in a strange place among strangers they seem to find new strength. New interests make claims upon them, and little by little they become resigned to the inevitable.

EASY DISH WASHING

IMPROVED METHOD OF CLEANING TABLE UTENSILS.

Does Away in Large Measure With the Unpleasant Work Which All Housewives Dislike—Saving of Both Temper and Labor.

After each meal spoons, knives and forks are gathered, dropped into a pail of clean suds and immediately wiped dry, a simple matter of two or three minutes. The plates and dishes are scraped and set in a tub of suds, hot or cold, as convenient, the cups and saucers into another tub or pan likewise.

Then the cooking things are thoroughly cleaned when emptied, and rinsed and wiped and put away immediately, which is much easier and more quickly done than at any other time.

One's hands need not be wet during the whole process, and there is nothing unusual in the neat kitchen except three bright pans or tubs of neatly piled dishes covered with water.

When ready to attack them the water is poured off and fresh, hot suds poured over the panful. Then the clean pieces are lifted out into the drainer, set in a large pan to fit, hot water poured over them and the drainer set on the back part of the range or in the sun and air for a few minutes until they are ready to set away.

Piled in open order, with hot water poured over them, and set in a current of air, dishes dry of themselves better than anyone can wipe them.

Pitchers and jars are washed out with a mop, scalded and turned upside down to dry. They dry more thoroughly and with less danger of breakage than in the ordinary way, and why is this method not as good for all china? If you will try drying china in this way you will find that it comes out glossy enough to suit the most exacting housewife—and with a great saving of temper and labor.—Chicago Herald.

HINTS FOR THE HOUSEWIFE

When boiling a leg of mutton inclose it in a muslin bag. Cooked in this way it will keep a much better shape.

To make red tiles a bright color, rub with lemon dipped in fine salt. Leave for a few minutes, then wash with soap and water.

A soiled photograph mount may be cleansed by rubbing with dry bread crumbs; the photograph should be wiped with clean cold water.

For removing tea and coffee marks from linen glycerine is excellent. Pour it over the stains, rub it well in, and wash in the usual way.

Indiarubber gloves are better than leather ones to wear when doing housework; they are more flexible, and in addition are much easier to keep clean.

Where oil lamps are used a pailful of dry sand should always be kept handy. Nothing is so effective for extinguishing burning oil in case of accident.

When making sweet dumplings, whether sweet or savory, always prick them well before putting them in the pan. If this is done they will not stick to the bottom.

Fried Maryland Chicken.

Merely split a young chicken in halves, sprinkle over with flour and fry in deep hot butter, allowing 20 minutes for each side, 40 minutes in all. Season well, turning chicken and also pan frequently. Have it covered, for steam of the moist meat and butter aid in cooking it. When thoroughly done, lay on a hot platter and put as much flour into a gravy pan as there is fat remaining, and let brown for an instant. Add nearly a cupful of cold or warm water, gradually, and one heaping teaspoonful of sugar and allow to boil, thus making a delicious brown gravy, thickened, and pour on chicken. Serve at once.

Vegetable Roast.

Take one-half cupful of boiled corn, either canned or cut from the cob; one-half cupful of baked beans, mashed to a pulp; one-half cupful of boiled rice, one-half cupful of strained stewed tomatoes, one-half teaspoonful of minced onion, two tablespoonfuls of melted butter, one-quarter cupful of sweet milk and salt and pepper to taste. Mix this together and add enough stale breadcrumbs to make a stiff dough, roll and bake in a greased pan. Serve with tomato sauce.

Appetizing Breakfast Dish.

A "different" cornmeal mush. Make the mush in the usual way, using about one quart of water well salted (one teaspoonful); stir in one cupful of yellow cornmeal and cook in double boiler about one hour. When done stir in one to one and one-half cupfuls of chopped cold meat (any kind) and season slightly with sage. Pour into pans and when cold slice and fry in bacon drippings or butter.

Beet Relish.

One quart cooked chopped beets, one quart chopped raw cabbage, one cupful chopped raw onions, one cupful sugar, one tablespoonful salt, one teaspoonful black pepper. Mix well and add to vinegar which has been boiled.

Good Habit.

If you have never formed the habit of washing cereals before cooking, try putting them in a basin and filling it with cold water. You will find much trash and husks rise to the top, and it is better to strain this off.

TWO VERY FINE DESSERTS

Souffle Omelet Can Be Recommended as Something That Will Be Appreciated—Cream Pudding.

Souffle Omelet.—Three tablespoonfuls of flour, three tablespoonfuls of powdered sugar, five yolks and three whites of eggs, one-quarter of a pint of cream, one and one-half tablespoonfuls of butter, grated lemon rind. Work the sugar and butter to a cream, add the yolks of eggs, one at a time, and beat up vigorously until quite light and creamy. Add the cream and about one teaspoonful of lemon rind. Beat the whites of the egg to a stiff froth, and mix with the flour carefully into the above. Put into a well-buttered flat, round cake tin and bake 40 minutes in a moderate oven. Turn out on a hot dish, dredge well with powdered sugar, pour around some hot custard sauce and serve hot.

Cream Pudding.—Work up three yolks of eggs with three tablespoonfuls of sour cream, add one rounded tablespoonful of sugar, one-half cupful of salt and one cup of bread crumbs (soft and white), or cake crumbs. Beat up the three whites of the eggs to a stiff froth and mix with the above. Fill a buttered pudding tin or bowl, cover with a buttered paper and steam or boil for 45 minutes. Unmold and serve with wine sauce or hot custard or vanilla sauce.

USEFUL OVER KITCHEN SINK

Inexpensive Medicine Cabinet Will Be Found of Value in a Number of Ways.

Get an inexpensive medicine cabinet and hang it over the sink. In it keep scouring powders, silver polish, ammonia, brushes and the things necessary for dish-washing and cleaning but which are unsightly. Every woman likes to glance into a handy mirror also before she answers unexpected rings of the bell, so the cabinet serves two purposes.

A special economic device is to apply a piece of rubber hose one and one-half inches long to both hot and cold water faucets in the kitchen sink. This prevents a chance bump against the metal faucet breaking or chipping dishes. It will save many a piece of china from the unsightly and expensive ticks which so often occur and are so disliked by good housekeepers.—Woman's Home Companion.

Make Repairs Now.

This is the time of year when the housewife should take a survey of the many small repairs about the house which should be attended to before winter "sets in." It might be well to have a repair day when the handy man takes his time and tools and finishes these numerous odd jobs. Perhaps one or two window panes are out, a cupboard door sticks, or a lock is out of order. The back steps that are worn out (and have been for some time) and are propped up with a rock or pile of bricks might be repaired to lessen the danger of accidents. Little things "out of order" are a source of unnecessary worry to the busy housewife and when repaired in "ship-shape" they mean much in comfort and convenience.—Miriam M. Haynes, Colorado Agricultural College, Fort Collins, Colo.

Olives of Veal.

This takes some pains, but it is well worth while. You will need one or two cutlets which you should trim and cut into pieces about two and one-half inches wide by four inches long. Place on each piece a strip of thin bacon and a tablespoonful of chopped mushrooms. Season with pepper and salt and roll up, tie and skewer. Have ready fine bread crumbs and a beaten egg and dip each olive first in eggs and then in the crumbs. Now do each one up in buttered paper—oiled paper will answer—and bake them. Cut the string when done and remove the skewer. They are especially tempting when served with tomato sauce.

Fish a La Wynne.

Boil two pounds of codfish and while hot remove all bones, skin, and flake fish in small pieces. Sprinkle with salt and pepper. Mix together a gill of anchovy essence, one tablespoonful of mustard and the same of tarragon vinegar and olive oil. Over the fish sprinkle some grated Edam cheese and stir through the mixture. Arrange it on a salad dish, garnish with watercress and sliced cucumbers and set on ice for an hour or more to chill. Serve with salad a very thin mayonnaise.

Black Cake.

Two cupfuls of brown sugar, one-half cupful of butter, three eggs, one cake of shaved chocolate (dissolved in one-half cupful of very hot black coffee), one level teaspoonful soda (dissolved in one-half cupful of thick sour cream or milk) two cupfuls of flour. The sour milk makes the cake richer and the coffee improves its flavor. If you make this in layers, try a marshmallow filling, and, of course, you can use white instead of brown sugar in cake if preferred.

Curry Sauce.

Slice an onion in thin rings, fry them in two ounces clarified fat. Stir in half a dessertspoonful of curry powder and one dessertspoonful of flour; salt to taste. Add one-quarter of vegetable stock and cook all together for 30 minutes; strain and use.

All of the Egg.

If you are making a cake which calls for only the whites of eggs, make cookies which call for yolks; they will keep and you will have cake sufficient to last for some time.

OF INTEREST TO CAR OWNERS

The Badger State Automobile Insurance of Rhinelander, Wis., is in the process of organization and is acquiring the necessary applications to obtain their charter. We are offering the car owners of Rhinelander and vicinity this opportunity to get in on the present low rates which hold good only until we are fully organized, after which they will be raised. This plan of insurance has already proven a success. You take no risk and would be benefited by a very conservative rate of Automobile insurance. We will gladly outline our plan and answer any question to anyone interested.

STRAW FOR FERTILITY

Practice of Burning Piles After Threshing Is Wasteful.

Soils in Many Sections Would Be Greatly Benefited by Addition of Fertilizing Constituents Present in Stalks.

From the time the prairies were first cultivated up to a year or so ago it was the general custom to burn the piles of straw which dotted the fields after the fall threshing. In fact, it is yet a very common practice and a very wasteful one.

It is an established fact that organic matter is essential for soil fertility. No one disputes the fact that our prairie soils are already rich in this essential, but in many sections the soils would be greatly benefited by the addition of the fertilizing constituents which are present in the straw.

Hopkins of Illinois gives the value of oat straw for manurial purposes at \$3.30 per ton. Wheat straw is valued at \$2.58 per ton. The same relative comparison gives the value of fresh farm manure at \$2.22 and barnyard manure at \$2.34 per ton. Anyone who destroys a ton of wheat or oat straw, therefore, destroys more fertilizing elements than are contained in the average farmyard manure.

The best method of handling straw is to feed it to stock and return the manure to the land. Thus it serves a double purpose—fodder and manure. When fed to horses or cattle on a maintenance ration or those doing comparatively little work, oat straw is considered by Hoard's Dairyman to be from one-half to two-thirds the value of good clover and timothy hay. The manure from one ton of wheat straw is worth \$1.52, and that from a ton of oat straw is worth \$2.34. Thus the wastefulness of burning straw is evident.

When sufficient live stock is not kept, however, to use all of the straw in this way, the straw can be returned directly to the land. It may be spread and plowed under or used as a top dressing on grain or pasture.

Slightly Mixed.

There is a good anecdote of an Irishman giving the password at the battle of Fontenoy, at the time the great Saxe was marshal. "The password is Saxe; now, don't forget it," said the colonel. "Saxe; faith, I won't. Wasn't my father a miller?" "Who goes there?" cried the sentry, after he had arrived at the pass. The Irishman looked as confidential as possible and whispered in a sort of howl: "Baz, ver honor."

Her Idea About Golf.
Many anecdotes are told of some of
the curious ideas held about golf by
people to whom it was a new and
strange game before its modern popu-
larity had set in. One woman who
had evidently had a near view of the
game said: "It is played by two men.
One is a gentleman and the other is
a common man. The common man
sticks a ball on a lump of dirt, and
the gentleman knocks it off."

It's a Good Idea.
If you ever feel that life isn't worth
living and that friends are untrue, just
turn your attention to your liver and
see whether by toning it up according
to the directions Mrs. Symes gives to-
day you can't put a rosy hue on life.

HAVE LIVE STOCK INSURANCE

Movement First Appeared Along the
Atlantic Seaboard and is Rap-
idly Moving Westward.

(By J. O. RANKIN, Missouri College of
Agriculture.)

Mutual live stock insurance was the
first form of agricultural co-operation
to develop in this country and in some
others. It appeared along the Atlantic
seaboard but has moved steadily west-
ward until it is found in practically
every part of the country. The mere
fact that it is so prevalent is pretty
good proof that it is needed, but it
is not nearly so urgently needed in this
country yet as it is in Europe, where
it has reached a very much greater
development that has many lessons for
us. Many a man in Europe would
be left destitute or at least embar-
rassed for life by the loss of a horse
or cow not covered by insurance. Many
a man who prefers to buy one good
cow would buy two poorer ones for
fear that one good one would die and
he would lose all he had if he could
not protect himself by live stock in-
surance. In England he may insure
not only the cow but practically every-
thing else on the farm from the labor-
er in the field to the bees in the hive.

Conditions in this country are every
year becoming more and more like
those across the water which demand
such a great development of live stock
insurance. Free farm land is no longer
of very good quality, and soon the
government will have none at all.
Competition will be keener and keener,
and the struggle will no longer be
to amass a farm-made fortune, but
only to make a living and keep what
we already have, at least for most
of us. Under such circumstances live
stock insurance, now a desirable thing,
will become absolutely necessary and
each man will have to decide whether
to join a mutual company or patronize
a commercial company.

Goodness Shown in Countenance.
The good man is as beautiful as he
is good. . . . Goodness, everyone
knows, has a tendency to make a per-
son agreeable; even in its outward
form it throws a holy luster out of
the eyes. It gives a noble aspect to the
face and forehead.—Payley.

At Last! Illuminated Keyholes.
Announcement was made at Harris-
burg, Pa., of the formation of the Vi-
olet Ray Enamel company, which will
manufacture an enamel which will
give a clear violet ray at night and be
useful in enameling door fastenings,
locks, keyholes, house numbers and
doorplates. — Pittsburgh Gazette-
Times.

Simply Impossible.

A Chicago woman who had received
a legal summons to appear in a cer-
tain court at a certain period was
much put out thereby. In explaining
the matter to a friend, she said: "I
have certainly received the citation, but
I shall not appear—could not, in fact.
Not only am I not socially acquainted
with Judge Jones, but the whole tone
of his communication is so impossible
that I absolutely refuse to know him."

Beam in the Eye.

Many a child, as well as some old-
er persons, has puzzled over that
"beam" in the eye of which the New
Testament speaks. It is not always
understood that this means a beam of
light. But it was left to Solomon
Bernhard, in his wood cuts illustrat-
ing the Bible, published at Lyons in
1553, to picture this beam as one of
wood, rectangular in section, and sev-
eral feet in length!

THREE LAKES DEPARTMENT

Chas. Boehm came up from Gagen to Sunday with his family. On account of the storm Saturday freight was abandoned. The old gentleman Fournier is visiting friends at Appleton. M. Kent, father of Mrs. F. S. Campbell is very low at this writing.

Town Treasurer Gorski reports the tax monies are coming in quite good.

Mary Plotke of Watersmeet was a visitor at the Zawacki home the past week.

Ireland was shown to our village children last Saturday evening—on the slides.

Mr. Grossman who resides on the Stanson farm lost a horse the first of the week.

Fleishman, salesman for Day & Bergwald of Milwaukee, was in town Thursday.

Mr. Pope, Allie Beach and Master Gordon were visitors at the Beach camp on Saturday.

A representative of the Milwaukee Rubber Co., booked orders in town on Wednesday.

The new sign at the Hotel Three Lakes looks up big. The American House is a thing of the past.

Mr. and Mrs. Fred Tucker of Hiles are spending a few days with Three Lakes relatives and friends.

John Olkowski, Jr., was at Antigo on Saturday. He is taking an examination for a C. & N. W. Ry. job.

The Royal Neighbors and Modern Woodman families enjoyed a valentine party at the hall Wednesday evening.

Andrew Zawacki, who spent a two weeks vacation at his home has returned to Minneapolis to resume his duties.

We learn that J. A. McDonald who is at Chicago this winter has been quite ill the past ten days with the gripe.

Glenn Small, who spent some months in Idaho visiting his sister Dora Nitke, has returned to his Three Lakes home.

Mr. Morrill, the Robbins cruiser, was a Three Lakes business visitor Friday. While here he looked over some lands on the west side of Long Lake. Mr. Morrill is a fine man to meet and is an interesting entertainer especially when it comes to relating his western experiences.

Andrew Bonfigli is able to be about without the use of crutches again. He was injured some months ago and has had a hard time of it.

If you would like to enjoy a day's outing—go to Planting Ground lake, cut five holes through the ice—arrange your lines and wait for results. They say the pike flavor is fine this time of the year.

A. E. Himley, the Mayor of Crandon, spent a few days with old time Three Lakes friends. Andy, as he is familiarly known, is the same old fellow as of yore, and his friends were indeed glad to see him. While here he paid his taxes without a sigh.

Frank Epler, the weather man—now comes out and claims this an open winter. Yes, he says, its open on both ends and it lets the Dakota blizzards sail through, he is the same fellow who claims that eight German boots went down last Friday—but that they came up again. (Sub-marines.)

Brewster and Stanzel ought to apply for a patent on their new gasoline power ice cutting device. They are cutting the ice with a circular saw and a gasoline engine in operation and are successful in operating the same. Don't be bashful boys—get out a patent—its a money machine.

Our village school fared pretty well at county meet last fall. Two nice prizes consisting of two pennants were awarded our school one on the speaking contest and one on the field races.

Geo. Ball, who is employed at the Joe Godlewski logging camp at Cavour, came home to Sunday with his family.

Adolph Kloes came to town on Saturday with his sleigh. He carried a carriage heater and while eating his dinner at the hotel the fire alarm sounded and upon investigation it was found that the carriage heater had set afire some straw in the bottom of the sleigh box and the flames were consuming his blankets. A good warning brothers.

—We wish to thank the many kind friends and neighbors and members of the Royal Neighbors lodge for assisting us during the illness and at the death of our mother and grandmother. We are also thankful for the numerous floral pieces.

Mr. and Mrs. J. Hack & Family, Emil Fauville, Jule Fauville, Joe Fauville.

ENTERPRISE

Chas. Murray departed Thursday for Kentucky. His mother will accompany him when he returns to Wisconsin.

Mrs. H. Berdan and sister Miss Smith, of Crandon, were guests at the J. Berdan home last week.

J. Schoeneck, who is employed in Pratt, Jct., spent Sunday with his family here.

Mrs. Adkins and grand-daughter of Crandon visited at the M. V. Murray home the past week.

M. Leith returned Monday from Antigo.

A fair sized crowd attended the program given by the E. A. A. at the school house Saturday evening.

Miss M. Johnson of Parrish visited with home folks Sunday.

A little son arrived at the home of Mr. and Mrs. T. Davis, Sunday.

Waiting doesn't pay. If you neglect kidney backache, urinary troubles often follow.

Doan's Kidney Pills are for kidney backache, and for other kidney ills.

Rhinelander citizens endorse them.

Mrs. A. Rosemark, 709 Mason St. Rhinelander, says: "My kidneys were weak and my back ached. I used Doan's Kidney Pills, that I got from Reardon's Drug Store and they cured me."

—LASTING RESULTS OVER TWO YEARS LATER Mrs. Rosemark said: "I am glad to say that the good results Doan's Kidney Pills brought have lasted. Doan's Kidney Pills have been of such great benefit to us that we can't speak too highly of them."

AN AGED WOMAN

Tells How Vinol Made Her Strong

In her eighty-second year Mrs. John Wickersham, of Russellville, Pa., says: "I was in a run-down, feeble condition and had lost flesh. A neighbor asked me to try Vinol, and after taking two bottles my strength returned; I am gaining in flesh, it has built up my health and I am feeling fine for a woman of my age, so I get around and do my housework."

The reason Vinol was so successful in Mrs. Wickersham's case was because it contains the very elements needed to build her up.

THE NORTHWESTERN MUTUAL LIFE INSURANCE CO. MILWAUKEE, WIS.

GEO. C. MARKHAM, President

To the Public:

The 59th Annual Report of the President to the Trustees and other Policyholders of the Company shows the following transactions for the year 1916:

Death Claims Paid	\$15,515,133.26
Endowments Paid	4,839,065.81
Dividends of Surplus Paid	13,151,403.51
Surrender Values Paid	8,691,297.05
Annuities	245,188.64
TOTAL PAYMENTS TO POLICYHOLDERS	\$42,442,088.27
Addition to Assets	19,453,108.09
Grand Total for Benefit of Policyholders	\$61,895,196.36
New Insurance Paid For	\$153,272,632.00

Total Insurance in Force, \$1,505,464,984

FINANCIAL CONDITION JANUARY 1, 1917:

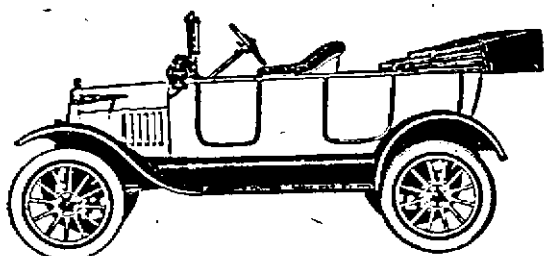

ASSETS	LIABILITIES
Loans on Mortgages \$194,146,609.30	Legal Reserves \$328,977,009.00
Bonds (Market Value) 93,136,383.00	Present value of not due Installments 5,898,959.40
Loans on Policies 55,177,841.29	Claims, Taxes, Dividends Due, etc. 3,686,244.33
Real Estate 4,099,093.60	Annual Dividends of Surplus, Payable 1917 12,282,107.00
Cash 3,167,866.67	For Deferred Dividends 1,635,879.68
Miscellaneous 13,356,424.28	Contingency Reserve 10,604,018.73
Total \$363,084,218.14	Total \$363,084,218.14

Substantial increases over 1915 are shown in Death Claims, Endowments and Dividends paid, and in the item "Addition to Assets," thereby making a decided increase in "Grand Total for Benefit of Policyholders." The new insurance paid for in 1916 was the largest in the history of the Company. Policy loans fell off appreciably and the amount of surrendered policies decreased materially, indicating a realization by policyholders of the real purpose of their insurance. There is still abundant room for growth. The gains of 1916 merely indicate future possibilities. A conservative forecast for the Northwestern warrants the conclusion that its liberal and flexible contracts, at lowest net cost, will insure its constant progress. The above figures are worthy of careful consideration.

FORD

THE UNIVERSAL CAR

320,817

Have been built and actually delivered to retail buyers since August 1st, 1916. These figures—320,817—represent the actual number of cars manufactured by us since August 1st, 1916, and delivered by our agents to retail buyers. This unusual fall and winter demand for Ford cars makes it necessary for us to confine the distribution of cars to those agents only who have orders for immediate delivery to retail customers, rather than to permit any agent to stock cars in anticipation of later spring sales.

We are issuing this notice to intending buyers that they may protect themselves against delay or disappointment in securing Ford cars. If, therefore, you are planning to purchase a Ford car, we advise you to place your order and take delivery now. Immediate orders will have prompt attention.

Delay in buying at this time may cause you to wait several months.

Enter your order today for immediate delivery with any of the authorized Ford agents listed below and don't be disappointed later on.

Prices: Runabout \$345, Touring Car \$360, Coupelet \$505, Town Car \$595, Sedan \$645, f. o. b. Detroit.

FLASHES FROM THE HEADLIGHT

Line To Winnipeg
The Soo railroad is contemplating the construction of a through line to Winnipeg, and the running of day trains to and from Chicago. It was announced by E. A. Silberstein, according to a Duluth dispatch.

Mr. Silberstein, who is chairman of the club's railroad committee, reported that the information was obtained "on good authority" and that "both matters will be acted on officially within a short time by the directors of the road."

Mr. Silberstein said the Winnipeg line will run direct from Duluth to Winnipeg going through Bemidji, Minn.

Northwestern's Earnings
The Northwestern road has decided, as other large roads are deciding to change its fiscal year to end Dec. 31, and it accordingly made public a preliminary statement of earnings for 1916. The net surplus after dividends was the largest in many years. Operating revenues were \$97,978,000, an increase of \$14,221,000. Gross income was \$30,800,000, an increase of \$5,701,000. The surplus available for dividends after paying interest and other fixed charges was \$20,169,000, or almost twice the requirements of the 8 per cent rate on the preferred and 7 per cent on the common. There remained after dividends net surplus of \$9,269,000. Despite the very great increase in costs of all kinds, the Northwestern operated on 66.46 per cent of gross last year, a decrease of 1.67 from the ratio in 1915.

Relief From Car Shortage
Railroad men and traffic managers predict that within another week there will be relief from the shortage of freight cars. A recent order, issued at Washington, will compel eastern carriers to return cars to western roads whether loaded or not.

Commission men are of the opinion that an increase in the number of available cars in the state will result in a reduction in prices on many commodities, especially potatoes. Throughout the state, the commission men say, farmers who have been holding potatoes for higher prices have been clamoring for cars now anxious to sell, fearing the market prices will break when western potatoes begin to arrive.

Blucher in the Hospital.
At the time of the seven years war there was very little knowledge of surgery, and the surgeons were often no more than barbers, inexperienced and uneducated. They were commonly known as the "Company of Pain," a name that fitted them admirably. Lieutenant Blucher, afterward the famous field marshal, was wounded in the foot by a musket ball. At the hospital to which he was carried several surgeons began to probe the wound and cut promiscuously in its vicinity. Finally Blucher inquired, in spite of the pain, "What sort of tailoring are you trying to do? The wound is large enough already, I should think!" "We're looking for the bullet," answered one of the offended surgeons. "Oh! Oh!" cried Blucher angrily. "Why didn't you tell me that before? I have it in my pocket." And with that he drew from his pocket the bullet, which he had extracted from the wound himself.

The Campagna.
The Campagna is the great plain surrounding the city of Rome, rolling gently down, like a quiet sea, over the bones of dead cities from the mountains to the Mediterranean. It is a low, desert level tufted with rusty grass and halcyon by a mist of romance and malaria. It is one of the most historic and most unhealthful bits of country in the world. A slow, subtle beauty belongs to it, which has taken powerful hold of some and which others never feel.

Mining Marble.
In the mining of huge blocks of marble at the Carrara quarries, explosives are still used largely. The electric saws are used only occasionally.
